

## WELCOME TO Ace Healthcare Services, Inc.

### "Home is where the heart is."

It always feels good to come to a comfortable home, and you are more relaxed in familiar surroundings. Patients respond better to health care provided in their homes rather than in a hospital or long term nursing facilities.

#### Home Health Care

**Ace Healthcare Services, Inc.** is an alternative to extended hospital stays or nursing homes. We understand the complexities of illness, and the far-reaching impacts on the patients and their families. **Ace Healthcare** provides professional medical and therapy services while teaching the family ways to take a more active role in the patient's care.

#### Home Health Visits

We offer 24-hour services. Each patient is assigned a staff member and visits are scheduled as ordered. The registered nurse will work with the doctor, patient, and family to design a home health care program to fit the patient's needs.

#### Home Health Patients

Patients who are homebound, either temporarily or permanently, and require medical care may qualify for services with **Ace Healthcare Services, Inc.** Once services are underway, the Plan of Care will be monitored by RN supervisors to ensure coordination of many services and adherence to doctor's orders.

#### Home Health Care Cuts Cost

Home Health shortens and, in some cases, even eliminates hospital stays. Medicare, Medicaid, and most major insurance plans cover the cost of home health care, according to their guidelines and criteria for the home health services.

Don't delay in seeking home health assistance. Seek quality care for a quality of life. If you want to set an appointment with our home health consultants, you may reach us anytime through – **713-978-6600**.
